What Will You Do this Summer?

Summer holidays are the most awaited time of the year for most school students. You never get this long a period of time all through the year. Many love the free time, when you can stay away from rigorous studies, school and the pressure of home work.

But think a little differently: summer holidays present wonderful opportunities to explore and have wholesome fun. What kind of fun? Well, there are so many options that it is hard to choose.

For starters, when the Sun is beating you and your friends down, how about some cool ideas that help you cool down. Learn a few simple recipes with fruit juices. You will find the recipe options on the Internet. As you experiment with the summer drinks, who knows? You may end up with an innovative recipe yourself!

A summer camp is not a bad idea. You can learn a skill or two. These could be handy in later years. It could be Vedic Maths or craft with paper or it could be the basics of a new language. Fun is in learning something new and discovering a few things that interest you. Yes ... discovering yourself is a big activity that you can set out on. It is surprising but true that most of us are not aware of what our strengths are and where our interests lie. As you grow up, it is important to understand what you like and what excites you. How will you know this unless you are actually doing things? This self-discovery can lead you to areas that you are passionate about. When you are passionate about

something, you find true joy in doing that. Nothing else matters except excellence in that particular activity. If you like working with computers and mobile phones, you can pursue activities related IT and wireless devices. If you like writing about places you see and love travel, you can do that with greater interest and sense of purpose. You can seriously consider making that your career as well.

The key is to keep the mind occupied with some interesting activity. While the summer's heat can be debilitating, one should avoid excessive rest and sleeping. The real danger for a young person is being lazy. As the old adage goes, "An idle mind is a devil's workshop." And please avoid getting addicted to the mobile. While the device is a boon for many, it has become a bane for students worldwide. With several free apps and games, it has become a challenge for parents and teachers alike to keep the students away from the evils of mobile phones. We believe the students should be the judges themselves.

Have a few goals for this summer vacation, which are not hard to achieve. By working on these and realizing them, you will get confidence and actually get the best fun in the entire vacation. In the process, you will become more responsible and develop strong character.

Wishing you the best of everything, fun included.
Happy holidays!

Principal's Desk

Dear Students,

Schooling is the first contact in the world, a period of joy, healthy competition, adjustment, sharing and love. It is not the wide open spaces, classes, the library; laboratories are the large fields that make the school. It is in the heart of the students and staff that the true institution exists.

Learning is not the process limited to schools and colleges only; nor does it end with the conclusion of our school career. It is indeed a lifelong process. People of fine character live by their values. They are honest and committed to truthfulness in thought, word and deed. True character thus encompasses the capacity for self-discipline. Character creates self-respect which in turn leads to high self-esteem. Maturity is reflected in all aspects of character - the decisions we make, the friends we choose and the responsibilities we accept. Always remember to uphold the dignity of people. Bring out the best in you.

With warm wishes and happy holidays,

Anuradha K, Principal

पापा जब बच्चे थे

मेरे पापा को सर्कस देखने का बहुत इच्छा हुआ और एक बार मेरा पापा और दादाजी जम्बो सर्कस देखने गये थे। मेरे पिताजी को उसने एक प्रदर्शन बहुत प्रेरित हो गया और वहाँ एक बालक ने एक तरफ से दूसरी तरफ बान्दी रस्सी के ऊपर सैकल चला रहा था। मेरे पापा इससे प्रेरित होके वो भी एक सैकल ले के बगीचे गये और एक पेड़ से दूसरी पेड़ तक रस्सी बाँधे। उस रस्सी के ऊपर चढे और सैकल को चलाने का कोशिश की पर संतुलन नहीं मिले और मेरे पापा नीचे गिर पडे और उनको बहुत चोट लगी। इस घटना के बाद मेरे पापा जीवन मे दूसरी बार ऐसे गलती नहीं किये।

जब मैं हार गई तो !

जब मैं हारी तो कोई मुझे डाँटा नहीं। मेरी अंतःरत्मा मुझे कोई काम करने नहीं देती। जब मैं सोचना शुरू करती तो मेरे हारने का फल ही सामने आता। तब मैं समझी कि मैंने यह किसी को नहीं बताया, इसलिए मुझे इतना बुरा लगा। मैं बस जीतने ही वाली थी। तो उस दिन स्कूल के बाद मैं अपने माँ के साथ पार्क गयी। बस बहुत बुरा लगने के कारण मैंने सच उगल दिया। मम्मी ने मुझे कुछ डाँटा नहीं कहा, अगली बार कर लेना। तुम्हारी तैयारी बेकार गई इसका मतलब है कि तुमने ठीक से तैयारी नहीं की। अगली बार मैंने दिन रात कोशिश की। मुझे तब जीतने का ए हसास हुआ। तब मैं बिलकुल भूल गई कि पिछली बार मैं हार गई थी।

Science Day

India celebrates its National Science Day every year on 28th February to mark Dr. C V Raman's discovery of the Raman Effect. On this day some activities were done by higher primary students. The students have done working models.

Famous Personalities

Charles Spencer Chaplin

Charles Spencer Chaplin (16 April 1889 – 25 December 1977) was an English comic actor, filmmaker, and composer who rose to fame in the era of silent films. He became a worldwide icon through his screen persona, "The Tramp", and is considered one of the most important figures in the history of the film industry. His career spanned more than 75 years, from childhood in the Victorian era until a year before his death in 1977, and encompassed both adulation and controversy.

Saraswathi Pooja
